Photographic Consent Form

You are hereby agreeing to the following policies found at the following web address:

http://www.swimming.org/asa/clubs-and-members/safeguarding-children/. There are a number of documents but the Wave power Section 3 and 6 and the social media guidance must be taken into consideration.

You have been given permission to take photographs of **your child** and to share them **privately** with direct family members and close associates. Photographs should not be shared on social media sites or publically following the ASA guidelines.

The Club has a duty to ensure these guidelines are followed. This ensures photographs (or similar) of children, who for whatever reason, have refused consent for Photographic images, are not made generally available in the interest of the child's welfare.
